SUMMARY

Numbers-driven marketing leader with 15+ years across paid media, performance and marketing operations at brand scale (**ex-Google, ex-Samsung**). I manage advertising in the **millions per month** against hard business KPIs, and I **design and build agentic AI automation** (multi-LLM, MCP) that turns manual marketing into automated pipelines. A rare mix of brand-level measurement and hands-on AI building.

EXPERIENCE

Konecta2024 – present

Digital Growth & Analytics Lead

- Plan ~€600K/month of advertising across partners on business KPIs: margin >33%, revenue, CPL.

Samsung Electronics2021 – 2022

Head of Digital Marketing Operations

- Led a team of 9; €6M+/month media across Google, Amazon, Meta, YouTube, TikTok (€1.5M+/month Amazon Ads).
- Scaled e-shop ROAS from 1 to 6; 14 flagship launches; recognised by Google for Samsung's best launch (Galaxy S22).

Google2016 – 2018

Digital Strategist & Advisor, Google Ads

- Evaluated ~200 startups/month; mentored 15 Google Partner agencies; internal product trainer. (Hands-on with Salesforce.)

AI & AUTOMATION — DIFFERENTIATOR

I design and build **multi-agent systems** that automate measurement, reporting, lead generation and operations — as a non-developer, in a **vibecoding** approach. Stack: multi-LLM orchestration (Claude, GPT, Gemini), **MCP** connectors (HubSpot, Asana, Slack, Brevo), SQLite/JSON pipelines.
