

Head of Growth

Performance at scale · AI-native marketing

Why I'm the match

Honest, requirement by requirement.

8-figure ad spend (Meta · Google · TikTok)

At Samsung I ran €6M+/month of media and scaled e-shop ROAS from 1 to 6. I own the number end-to-end.

AI to accelerate marketing workflows

I design and build agentic AI automations (multi-LLM, MCP) for creative, copy, analysis and ops.

Full-funnel performance & measurement

GA4, tracking and attribution; I optimise for revenue and margin, not vanity metrics.

Growth leadership (8+ years)

ex-Google Ads strategist, ex-Samsung Head of Digital Marketing Operations; led teams of up to 9.

Remote, autonomous, distributed

Fully remote and self-directed, with a founder's ownership mindset.

English (leadership)

Professional working proficiency; strong written/async communication.

WHY CONTACT ME

I'm the rare combination Found is looking for: someone who has owned 8-figure spend at brand scale *and* builds AI automations hands-on. I turn a lean team into a high-output growth engine — and I optimise for revenue and margin, not traffic.
