

Marketing Manager

Performance · funnels · AI-accelerated

Why I'm the match

Honest, requirement by requirement.

Performance marketing & funnels (Facebook Ads, lead-gen)

Lead generation is my historic specialty; ran €6M+/month of media at Samsung.

Use AI to 10x production

I build AI automations (multi-LLM, MCP) that multiply output, not just speed up one task.

Measurement & ROI

GA4, tracking, attribution; I optimise for results, not vanity metrics.

Asset-level understanding of AI tools

I don't just use AI tools — I build with them, hands-on.

Marketing ownership / leadership

ex-Google, ex-Samsung; led teams; advised 200+ startups/month at Google.

Remote

Fully remote and results-focused.

WHY CONTACT ME

Performance marketing and lead-gen funnels, supercharged with AI to 10x output. ex-Google, ex-Samsung. I own the funnel and the numbers — and I build the automations that make a small team produce like a big one.
